Description

Unique property with lots of charm in the neighborhood of Les Corts, for those looking for something special. It has 98m² built plus a cozy patio with garden of 32m² with great privacy and tranquility.

The apartment has independent access from the street and is located in a building with only four neighbors, so it gives the feeling of living in a house, in the heart of Les Corts.

This unique property stands out for its careful renovation, which combines contemporary design finishes with the recovery of original elements of the house built in 1932, such as the high ceilings with beautiful concrete beams that give it an industrial air, reinforced by the spectacular window that opens onto the courtyard. In addition, the electricity and water installations have been completely renovated, and both the floors and walls have the best treatment and prevention against humidity.
